

Family Food Service Agreement

- As a member of the USDA Child and Adult Care Food Program, Renaissance gives families the option of having their child's meals supplied by the center. In order for Renaissance to begin supplying meals for any child the family must complete and return the Family Income Statement. There are two additional requirements for supplying infant meals. Families with infant children must complete the Infant Meal Notification letter as well as the Jar Food and Cereal Notification Letter.
- Children over the age of 12 months will be supplied meals three times each day. They will receive a morning breakfast, a catered hot lunch, and an afternoon snack.
 - Children with allergies or special food preferences (vegetarian, etc.) **must** have those components of their meals supplied from home. Renaissance does not supply soy based or meat alternative foods. Additionally, Renaissance does not supply alternatives to the foods listed on the monthly menus.
- Menus of Breakfast, Lunch, and Afternoon Snack are generated at the start of each month and posted in the classrooms as well as in the main foyer. Families of children with special dietary restrictions can request to have a copy of the menu provided to them in advance.
- Renaissance generally uses *Parent's Choice Milk Based and Iron Fortified* Formula and a range of infant jar foods. Renaissance generally purchases stage one textured jar foods. Families wanting their children to receive a certain stage textured food must supply those jar foods from home. Renaissance will attempt to maintain a stock of stage 2 and 3 infant jar foods but only stage one jar foods are assured of being available at any given time.
- Families requesting the center provide their child's jar foods, cereal, or formula must submit that request one week prior to the first day of meal service. Families can change their meal service preferences at any time but must provide one week notice of any new services requested of the center. Families also have the right to have the center provide only some of the meal components such as formula, but not jar food or to provide all meals themselves.

I, _____ have read and agree to the above guidelines regarding my child, _____'s meal service at Renaissance.
